

Canapés

Ideal for most occasions, the canapé originated from France in the mid nineteenth century. It compiles of usually three to five different components. Although small, the harmonious flavours allow your taste to go on a journey of experience with every mouthful.

Great for any event, canapés are appreciated by many as their components are recognisable although extravagant. Many organisers choose to go the canapé route as they are full of essential fibres and vitamins.

Although canapés are known for lining stomachs at drinks receptions, they work as a great talking piece to relieve that first bit of awkwardness after an introduction to someone new. I'm sure we can all agree that we need that icebreaker every now and again!

Canapés can be presented on a buffet table or served on a tray by our team at your event.
